

Part No. ALL36115  
ALL36116

## Expansion Tanks

Aluminum expansion tanks are commonly mounted as the highest point of the cooling system and used as a fill point on vehicles that have a low mounted radiator or when the fill point on the radiator is not accessible. The 1/2" NPT bottom supply fitting is commonly connected to the low pressure side of the cooling system and the return fitting is connected to a port located high on the engine to help release any air trapped in the system. Tanks feature a machined filler neck to accept most standard radiator caps and a 1/8" NPT port for connecting to an overflow tank.

**Part No. Description**

ALL36115..... Tank with Attached Mounting Bracket 28oz capacity with a 3/8" NPT Return Fitting

ALL36116..... Tank with Separate Mounting Bracket 20oz capacity with a 1/4" NPT Return Fitting

REV080118
