Dart/Chevy SHP Oil Restrictors

Oil restrictors for use in Dart SB Chevy SHP blocks are specifically designed for the priority main oil system to reduce the amount of oil flow to the top of the engine, reducing the risk of evacuating the oil pan in continuous high rpm engines. Kit includes two aluminum restrictors, an extra o-ring and detailed installation instructions.

Part No. Description

ALL90072.....Restrictor Kit w/ .090" I.D. Hole

ALL90073.....Restrictor Kit w/ .030" I.D. Hole*

* Smaller port size may be modified as needed for preferred amount of oiling.
