

**Part No. ALL58001**  
**ALL58002**

## Mono Ball Bearings

Mono balls are commonly used in fabrication of products including J-bars, control arms and trailing arms. Bearings have an external grease ring and orifice which allows the bearing to be installed in custom applications that can be externally lubricated.

<b>Part No.</b>	<b>Description</b>
ALL58001.....	5/8"
ALL58002.....	3/4"

### **ALL58001**

Mono Ball I.D. = .625"  
Mono Ball Height = .623"  
Housing O.D. = 1.187"  
Housing Height = .500"

### **ALL58002**

Mono Ball I.D. = .750"  
Mono Ball Height = .750"  
Housing O.D. = 1.437"  
Housing Height = .593"
