

## **Pressure Switches**

Pressure switches are commonly used to turn on indicator lights warning of a low pressure condition to help prevent engine damage. Switches complete a circuit to ground until the pre-set pressure is reached. Switches have male 1/8"-27NPT threads and a standard male blade electrical connector.

Part No. Description ALL99058.......Fuel/Water Pressure Switch, 4 PSI ALL99059......Oil Pressure Switch, 20 PSI
