

Part No. **ALL56256**

## Ball Joint Adapter Sleeve

Adapter sleeve is ideal for modifying stock style Chevelle lower control arms to accept a screw-in style ball joint. Adapter sleeve has an O.D. of 2.010" to take the place of a press-in style ball joint (ALL56210/K5103) allowing for installation of a screw in style ALL56214 with a (1.5" taper/ft.) pin or ALL56049 with a (2" taper/ft.) pin ball joint.

Note: Modifications to control arms may be necessary for proper fit of the sleeve. Sleeve must be welded to the control arm after installation.

### Tech Tip

---

To minimize distortion of sleeve during press-in, it is recommended that the balljoint be threaded into sleeve during press-in procedure.
