

Part No. ALL22645

Narrow Front Arch Support

Arch supports replace the front arches found on many asphalt late models and modifieds or when fabricating a new chassis. Narrow triangular design arches are constructed of 1-3/4", .095" wall, D.O.M. Steel tubing, are 30" wide at the mounting points and 17" tall, but may be trimmed to fit many applications. Sold as a pair*

*LH support features a small kick out for added header clearance.
