

**Part No.      ALL22190**  
**ALL22191**

## Steering Shaft Tubing

Seamless D.O.M. tubing is 3/4" O.D. with .120" wall thickness making this an excellent choice when building a steering assembly to connect steering wheel to steering box or rack and pinion. ALL52132 oversized rod end is commonly used to support steering shaft. Consult sanctioning rules to verify proper installation when building a steering assembly.

<b>Part No.</b>	<b>Description</b>
