

Part No. ALL52170
ALL52171

Collapsible Steering Shafts

Collapsible shaft is designed to be used in-line near the rack and pinion or steering box, allowing steering shaft compression. For proper installation, shaft should be extended when installed. The heavy wall, 1.140" diameter tubular steel shaft has 3/4"-20 splines on both ends. The durable rubber boot keeps the sliding mechanism free of dirt and debris.

Note: This shaft is **NOT** designed for directly attaching a steering wheel disconnect.

Part No.	Description
ALL52170.....	Long Assembly 24-1/2", Collapses 7"
ALL52171.....	Short Assembly 13-1/2", Collapses 3"
