

Part No. **ALL10516**

Pressurized Sprayer

ALL10516

Sprayer features a refillable canister that can be recharged after each use with compressed air making this great for applying bulk degreasers, solvents, penetrating oils and other chemicals. The removable fill cap features a built-in schrader style fill port for easy operation and the adjustable nozzle can be adjusted to change the pattern from a light mist to a fine stream.

Removeable fill cap
with pressure port.

Adjustable nozzle to
change spray pattern from
a mist to a fine stream.
