

Part No. ALL10575

High Torque Electric Tire Prep Stand

ALL10575

Electric tire prep stand with high torque motor is a heavy duty version of Allstar's standard tire prep stand that provides increased reliability and power when servicing tires. Prep stand eases grooving, siping, grinding, and even cleaning of tires. Two-way switch permits clockwise or counter clockwise rotation. A foot operated pedal controls the rotation of the tire. A 110V accessory outlet is included for convenient plug-in of siper or groover. Stand will accommodate 5x5 or Wide 5 wheels.
