

Part No. **ALL10625**
ALL10626

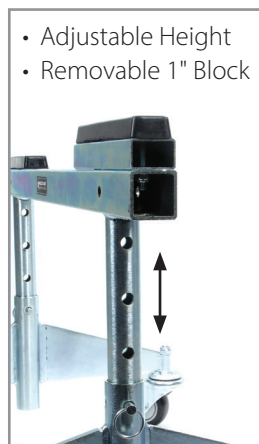

Chassis Dollies

Steel chassis dollies allow a car or chassis to be moved around the shop easily and safely. Each dolly measures 30" across the top with high-density rubber pads and a single wheel brake to help prevent rolling. Dollies adjust from 13" to 19" high with a removable 1" block on one side for use on sprint cars with a raised rail chassis. Stands also collapse flat for storage in shop or trailer. Dollies are rated up to 2000 lbs. per set and sold as a pair.

Part No.	Description
ALL10625.....	Standard Dollies
ALL10626.....	Black Dollies with Support Tabs*

- Adjustable Height
- Removable 1" Block
