

Part No. ALL11301
ALL11303

Air Jack Kits with Dirt Foot

The air jack system fastens directly to your chassis and uses air pressure supplied by a nitrogen tank to raise your entire car in seconds! Kits include cylinders with a 15.25" stroke length, cylinder mounting rings, air coupling with receiver, installation kit, safety stands, and detailed instructions. Lift cylinders feature a large 5" diameter base designed for use in dirt or soft pit areas. Air jack kit for complete car has a lifting capacity of 3000lbs and kit with two air jack cylinders has a lifting capacity of 1500lbs.

Note: A nitrogen tank, hi-pressure regulator and an air hose rated at a minimum of 400 PSI is required for operation.

Part No.	Description
ALL11301.....	Kit with 4 Lift Cylinders for Complete Car
ALL11303.....	Kit with 2 Lift Cylinders for Rear of Car Only

Replacement Components:
