

Part No. ALL22118
ALL22122

Door Plates

Plates are designed to be welded between the driver's side door bars. Plates may also be used to box "C"-type frame rails to add support and strength at critical roll cage mounting points. Plate is 1/8" thick x 48" long to meet requirements mandated by most sanctioning bodies and tracks.

Part No.	Description
ALL22118.....	4" x 48"
ALL22122.....	5" x 48"
