

Part No. ALL30010-ALL30043

Single Pass Aluminum Radiators

Excellent quality at an affordable price. Filler necks are machined, not stamped, and tanks are furnace brazed, not epoxied, eliminating two prime sources of leakage. The lightweight 1" tubes, arranged in two rows, offer outstanding cooling in daily drivers, race cars, and off-road vehicles. 1-1/2" inlets and 1-3/4" outlets have beaded hose fittings.
