

Part No. **ALL31090-31095**

SB Chevy Premium Reduction Pulley Kit

Premium reduction pulley kit features a 4-3/4" diameter crankshaft pulley and a 5-1/8" water pump pulley with 1/2" wide grooves for use with industrial grade belts. The increased belt width helps reduce belt slippage when used with high performance mechanical fans. The small diameter pulley combination provides less than 10% RPM reduction in fan speed while providing a 30% RPM reduction when using a power steering pump with a 6" pulley. Kit is designed to be used with short "Corvette Style" 3/4" shaft water pump (ALL31105 or ALL31106).

Part No. Description

ALL31090..... Kit For Block Mount Power Steering Pump
ALL31092..... Kit For Head Mount Power Steering Pump
ALL31093..... Kit without Power Steering

Individual Components:

ALL31094..... Crank Pulley (4-3/4")
ALL31095..... Water Pump Pulley (5-1/8")

V-Belts, 1/2" Industrial Grade:

ALL86127..... Belt, Crank To Water Pump 29"
ALL86128..... Belt, Crank To Water Pump / Block Mount P/S Pump 37"
ALL86129..... Belt, Crank To Water Pump / Head Mount P/S Pump 41"
