

Part No. ALL52325

Angled Steering Wheel Adapter

Change the angle of your steering wheel! Unique adapter mounts between your steering wheel and disconnect, allowing you to change the angle for driver comfort. Dual mounting holes allow for specific steering wheel spoke location. Adapter is 1" thick at the widest area and includes fasteners.

- Designed for use in quick steering race cars (late models, modifieds, road race). Not recommended for use with stock ratio steering box, slow steering applications.
- Clearance Double Check: After installation be sure you have sufficient driver and seat belt clearance, as the steering wheel will no longer spin in a single plane (it moves in and out, when spun completely around).
