

Part No. ALL76250

Lever Style Brake Light Switch

Brake switch is commonly used with under-floor mounted brake pedal assemblies when switch can contact the brake pedal arm. The switch is spring-loaded to the on position, turning off when brake pedal is released and contacts the switch lever. Mounting bracket features two #10-32 tapped mounting holes, 5/8" on centers. Designed for easy two wire connection, one "+" supply and the other to power brake lights or a brake light relay. Switch is rated at 4.5 amps and features two male bullet terminals.

Circuit closed, lights on

Circuit open, lights off
