## Upper Lube Fuel Additive

Upper Lube is a high temperature cylinder lube that protects and extends engine life. Added directly to the fuel, upper lube additive reduces chalky residue and corrosion from fuel system components while lubricating cylinders, valves, guides, and helps to prevent fuel wash down. It mixes completely, additive won't separate from fuel, leaves no varnish residue and does not contain a flame agent.

One 16 oz. bottle treats 55 gallons of alcohol, 110 gallons of ethanol, 150 gallons of gasoline or 250 gallons of diesel fuel.
